MAKES DIFFERENCE

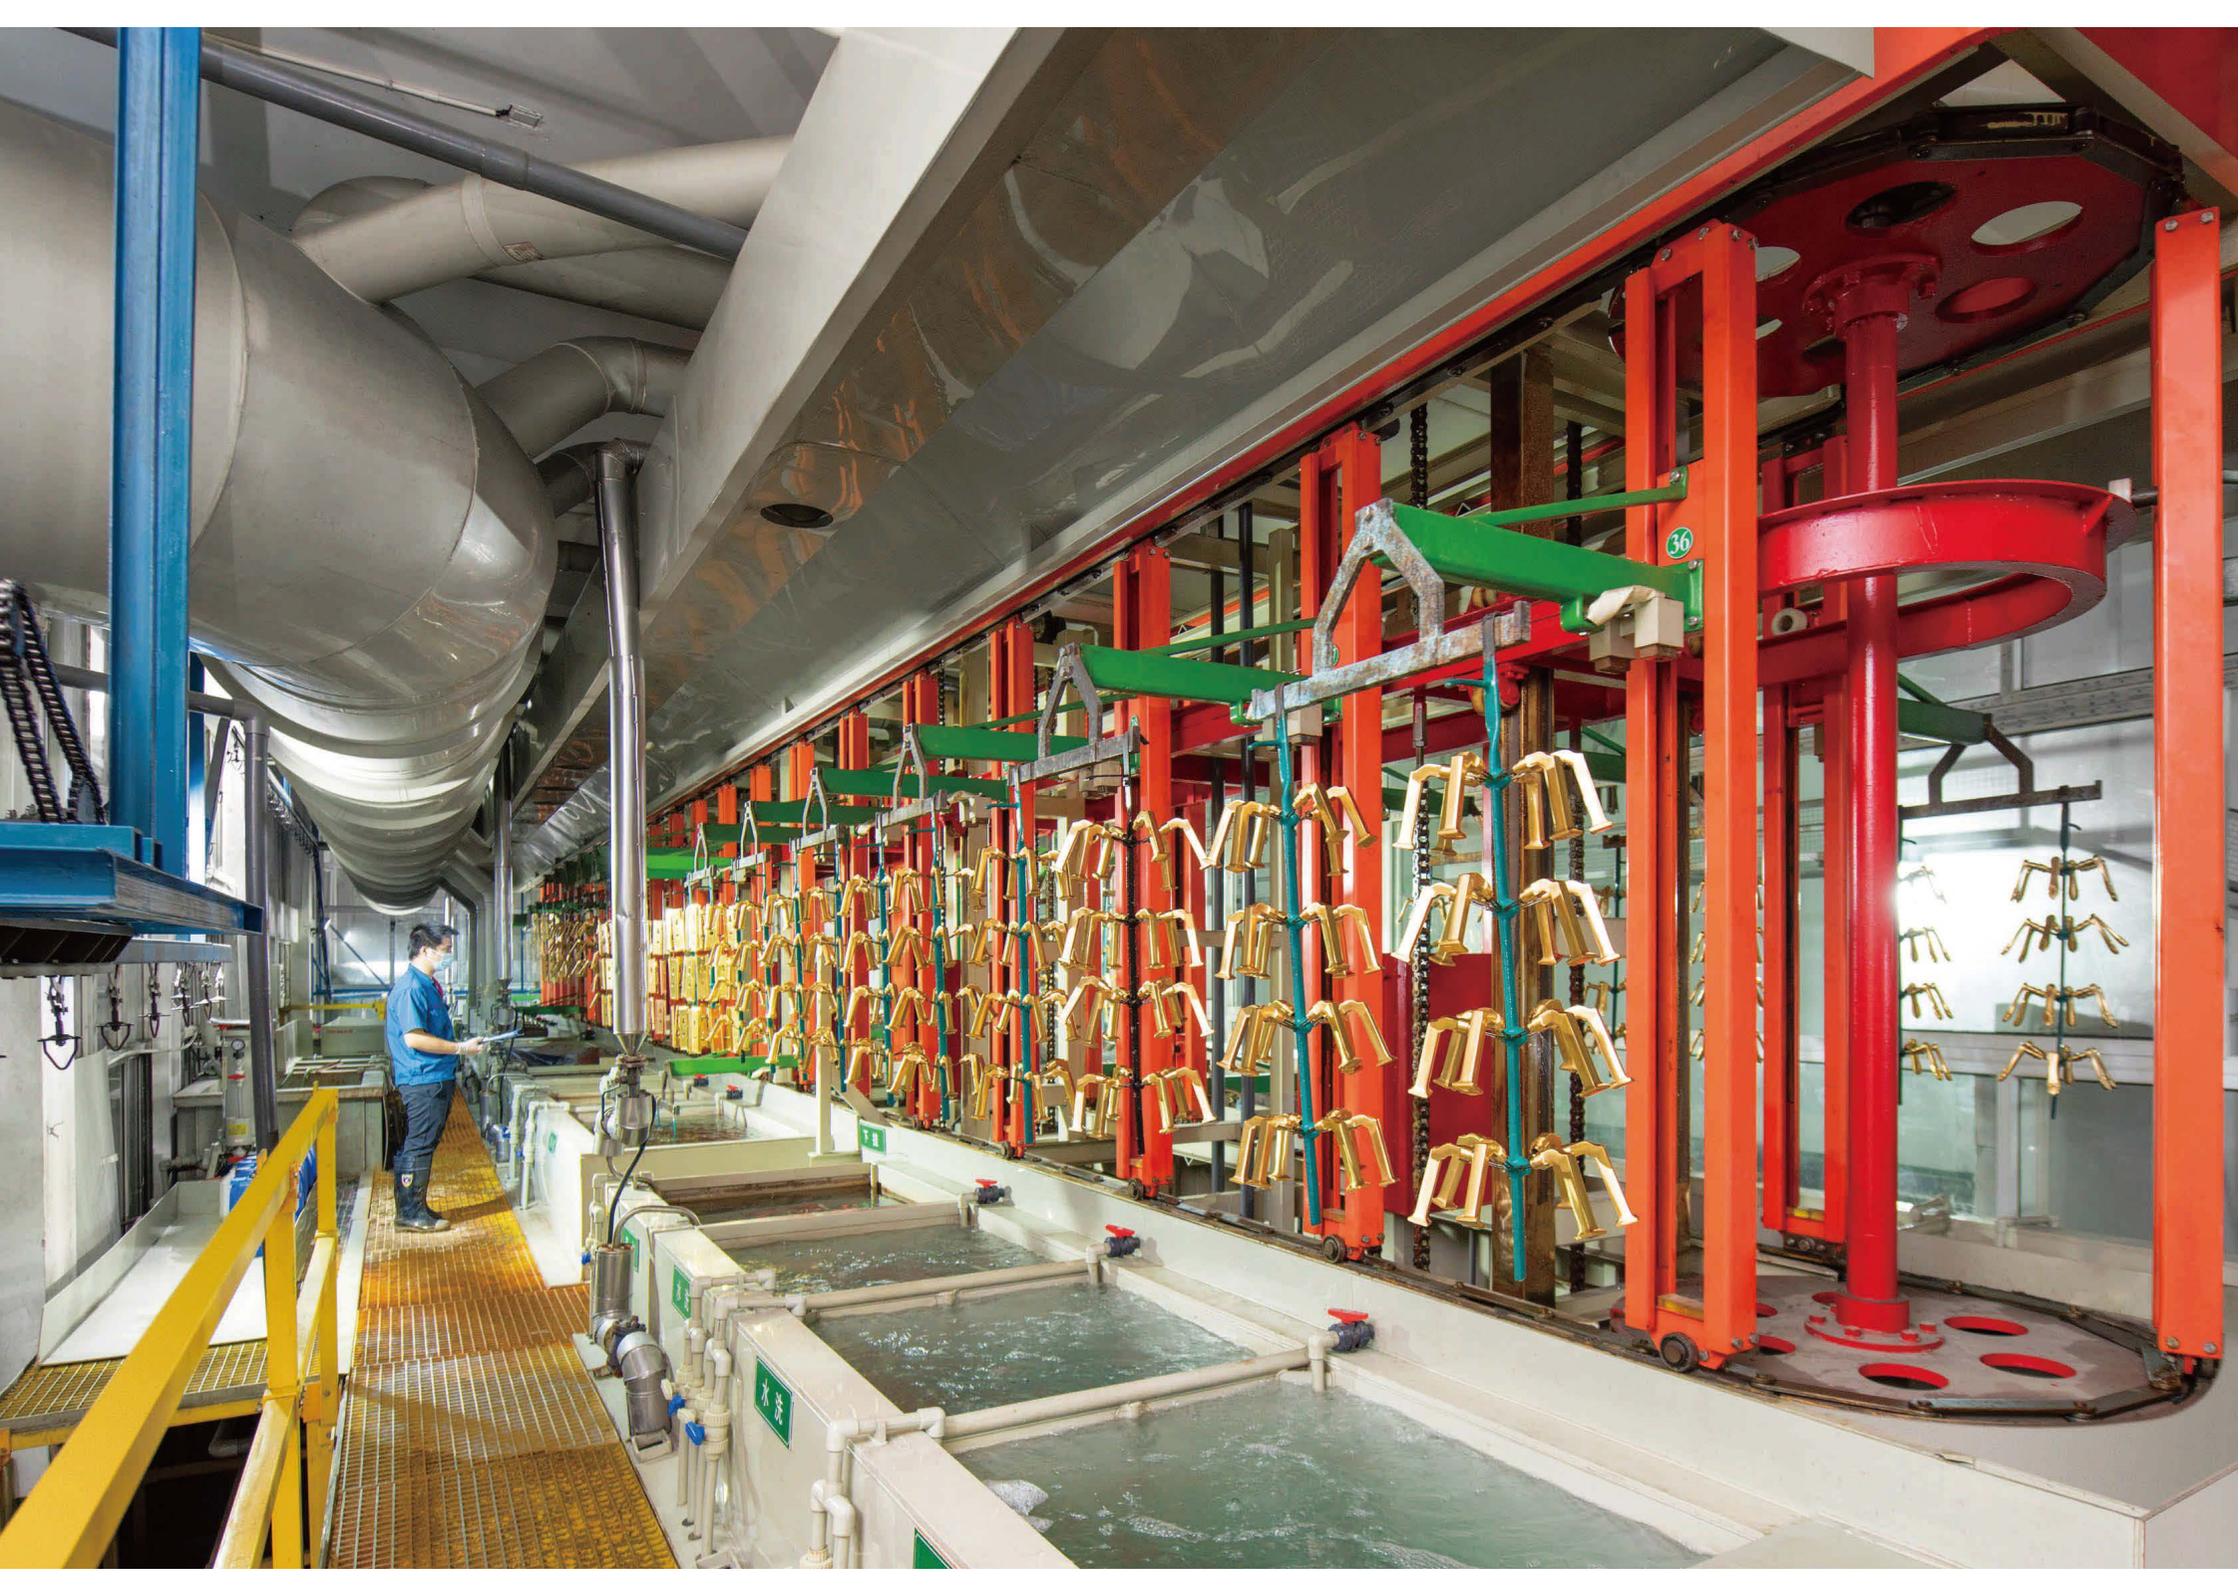

***EUROLATON***<sup>®</sup>

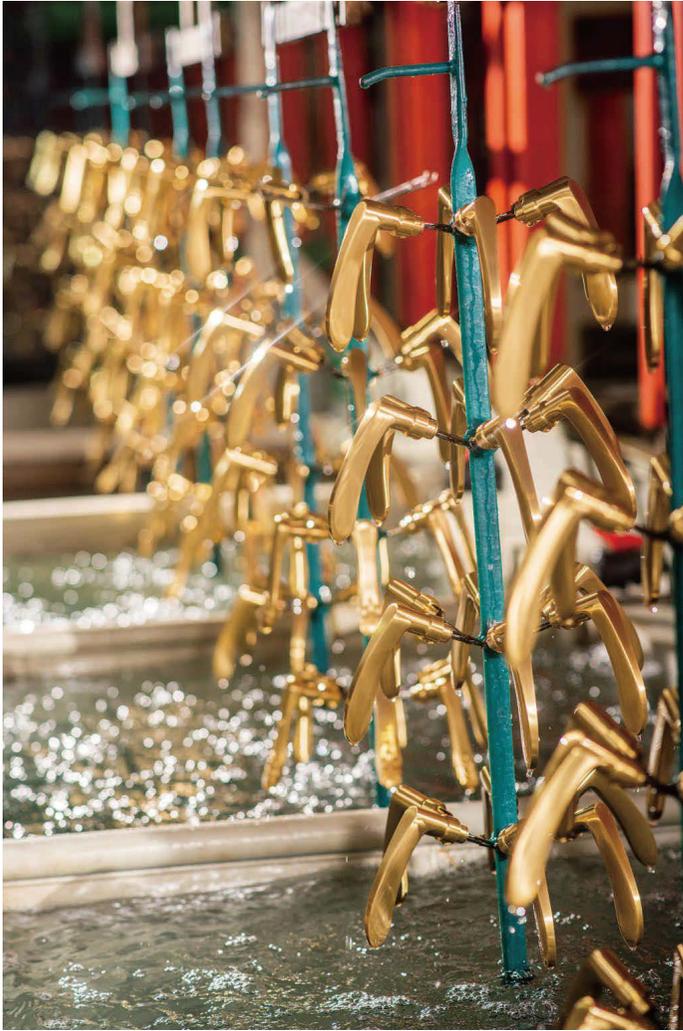

Modernist Art. The structure is exquisite and beautiful, firm and durable. The delicate contours, the exquisite detail. The use of Ergonomics, bring a wonderful sense of grip. A masterpiece of ingenuity . Perfect in shape, bring up household treasures.

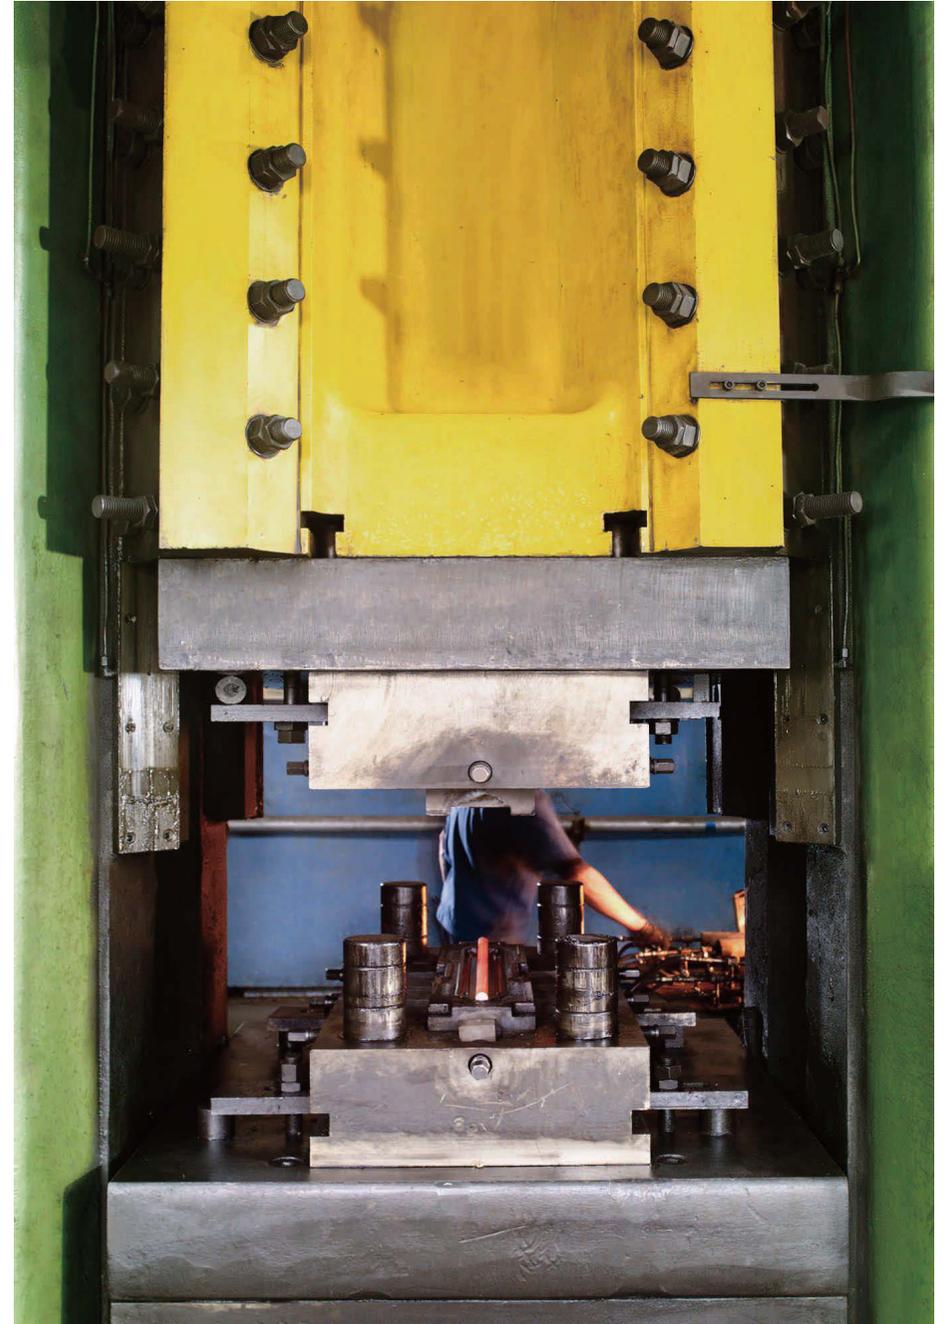

From forging, turning, die-casting, grinding, vibration, polishing mirror treatment, to chrome plating, metallization (PVD) and polishing process, etc. . This attention to detail is what makes the company's locks stand out.

The modern automatic electric pulse line adopts the latest surface treatment technology in the world, with high quality and high environmental protection.

Eurolaton is equipped with automatic polishing assembly line, covering the appearance cleaning, polishing, polishing anti-corrosion treatment and other important processes, fully guarantee the product bright color, corrosion resistance, anti-pollution characteristics. After the automatic polishing process, each product is tested manually, and every small defect is not missed, which is more careful than mechanical testing.
